Kristin Fust
GVRL Product Manager
Gale, a Cengage Company

Kristin started at Gale as an editor before transitioning to the world of product management. She now maintains the GVRL eBook platform and is focused on turning customer and user feedback into product updates that continuously improve the GVRL experience.

As a product manager at Gale, I love connecting with customers and learning about how they utilize eBooks on the GVRL platform. During these conversations, one common thread is usually the merit of GVRL in providing students with the foundational materials needed to better understand core concepts in their areas of study. Given the fact that institutions only need to purchase one copy of a book on GVRL to grant access to their entire campus, this insight—coupled with an ever-increasing focus on lowering student costs—presents libraries with a great opportunity to explore eBooks on GVRL as a source of affordable course materials.

Recent enhancements to GVRL make it easier to align your eBook collection with course offerings. For instance, libraries can create custom eBook collections that

We realize that selecting content takes time, and we want to make the process as easy as possible. Our content acquisitions team judiciously chooses titles from top publishing partners, such as SAGE, ABC-CLIO, Wiley, Elsevier, and more. Whether it is a title published by Gale or by one of our partners, we strive to provide the greatest value to our customers. Our frontlist team works with academic editorial boards and advisors before titles are published under the imprints of Gale, Macmillan Reference USA, St. James Press, and Charles Scribner's Sons. They also regularly engage with customers to develop content that supports academic courses by exploring new and emerging fields of study.

Together with libraries such as yours, Gale seeks to empower access and the discovery of insights. We're excited to offer an effortless eBook experience through GVRL as part of that mission.

COLLABORATION TOOLS

Extend the reach of your resources. Integrated **G Suite for Education** and **Microsoft Office 365** tools enable users to easily share, save, and download content—including highlights and notes.

SHAREABLE BOOKMARKS

With **GVRL**, bookmarked links never change and are shareable to non-users. Easily embed content on your website or in printed materials.

“We were looking for a source that would offer smart, scholarly discussions of key terms and concepts across the disciplines. I can rely on *GVRL* to give students an efficient way to find out how a term has been used.”

Van Hillard, M.A., Ph.D. Director of the College Writing Program and Professor of Rhetoric and Writing Studies—Davidson College

How your students research is just as important as what they research. While many other eBook platforms direct users to title-level results, Gale eBooks on GVRL are designed to cross search all of your eBooks to pinpoint relevant material. The result? Students spend less time looking for credible information, and more time diving into it.

Offer students and faculty an award-winning, hassle-free eBook experience—anytime, anywhere, and on any device.

DID YOU KNOW?

Harry Potter and the Sorcerer's Stone was first published under the title *Harry Potter and the Philosopher's Stone* in 1997.

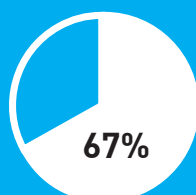

The Philosopher's Stone is an object from legends, and dates back to 300 CE.

A prominent theme in the novel is the dangers of desire. Harry encounters this in the Mirror of Erised ("desire" spelled backwards).

Religion: Beyond Religion

“Due to its breadth of coverage and the depth of research upon which it is based, this is an important addition to the literature of both religion and nonbelief. Thus, it is an essential purchase for any library that seeks to acquire materials related to the study of religion, for academic libraries that support religion majors, and for all seminary libraries.”

— American Reference Books Annual (ARBA), 2017

Religion: Embodied Religion

“This volume is a very strong entry into the series. Questions and information on religious experience and how gender, desire, and embodiment are interpreted, celebrated, abhorred, and justified are well represented in this compendium of scholarly works. This book will be well suited for researchers and scholars of history, sociology, theology, and global studies.”

— American Reference Books Annual (ARBA), 2017

LIBRARY JOURNAL: BEST REFERENCE PICKS 2016

Encyclopedia of Islam and the Muslim World, 2nd Ed.

Macmillan Reference USA • 2016

2 Vol.

ISBN: 9780028662725

Partners historical information with coverage of issues, countries, and people important in today's world, allowing for an assessment of Islam's influence on all areas of human activity throughout the Middle East, Africa, Asia, Europe, and the Americas.

“The source is greatly expanded in coverage from a decade earlier, providing new or updated articles for about half of the content, including over 350 color images and maps ... These updates have improved an already stellar resource, and the second edition should be considered for any library collection serving beginning students.”

DATABASES

Ensure students are set up for success with Gale's digital platforms. Our databases provide integrated workflow tools to support organization and study skills, encourage collaboration, improve engagement, and foster critical thinking. Students can access credible, comprehensive, and up-to-date content with favorites like Gale's *Academic OneFile* and *Gale Interactive*, available for human anatomy and chemistry courses.

These databases supplement and enliven traditional course materials so that students have curriculum-aligned content right at their fingertips.

“This technology really comes in handy for challenging areas to teach, for example, the human skull—you need to see the depth, which can only be seen via 3D.”

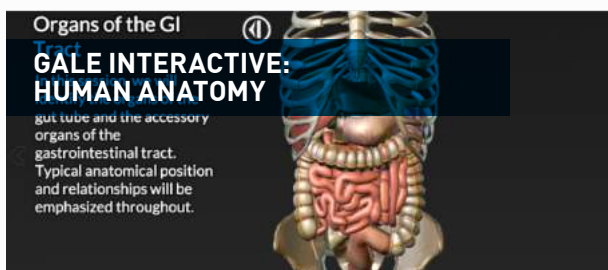

— Darren Hoffman, Ph.D., Department of Anatomy and Cell Biology
University of Iowa Carver College of Medicine

GALE INTERACTIVE

Connect Your Library to the Lab

Help students engage with science beyond static text through curriculum-aligned digital content and interactive 3D models designed to supplement course material.

These two innovative products focused around human anatomy and chemistry enable students to have access to a flexible and robust learning experience where they can delve deeper into concepts through technology.

GALE DIRECTORY LIBRARY

For business researchers, this library is an essential tool. It houses directories on companies, publishers, associations, and more to help with marketing and research. With expanded data and state-of-the-art search and export features, this resource allows libraries to select the directories they want and make them available to users anytime and on any device.

MAJOR PLATFORM ENHANCEMENTS COMING FALL 2017

MOBILE RESPONSIVE INTERFACE AND WORKFLOW ELEMENTS

Enjoy a new home page, detailed information on titles, and improvements to workflow tools. Additional enhancements include ReadSpeaker text-to-speech technology, interface translation tools, and the integration of G Suite for Education and Microsoft Office 365 tools.

IMPROVED SEARCH CAPABILITY

Both basic and advanced search options will have improved search relevancy to find information faster and easier. Users can take advantage of the improved search functionality to isolate the correct results among large quantities of records and data-heavy information.

EXPANDED EXPORT CAPABILITIES

Whether it's storing data for later reference or using the export tool for advanced programmatic analysis, users can now export larger lists with more records allowed for each output. With this enhancement, users can export to Excel, or save the file to Google Drive or Microsoft OneDrive.

ACADEMIC ONEFILE

A premier periodical resource providing millions of articles from over 17,000 scholarly journals and authoritative sources in PDF and HTML formats. This database includes rich media, such as podcasts, transcripts, and video from new sources that include NPR and CNN as well as videos from sources like NPR, CNN, and BBC Worldwide Learning.

GALE RESEARCHER

An intuitive research platform designed to help students build confidence as they develop research and critical thinking skills. Scholarly materials are aligned to introductory college courses to create a simple yet sophisticated path for students looking to foster a deeper understanding of the most-studied topics.

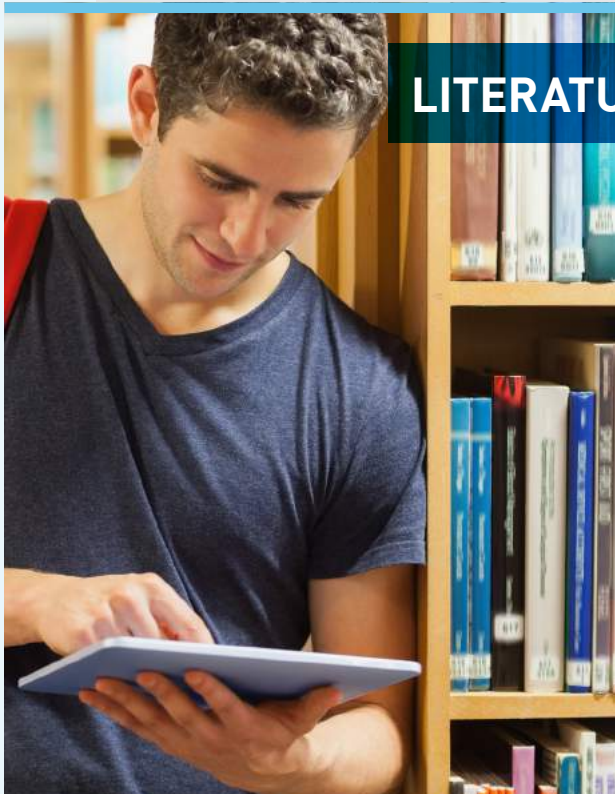

BUSINESS INSIGHTS: GLOBAL

Delivers comprehensive international business intelligence for business professionals, entrepreneurs, students, and researchers. This resource puts information in a logical, usable context so that users spend less time researching and more time connecting their discoveries to practical applications.

WORLD HISTORY IN CONTEXT

Covers the most-studied events, periods, cultures, civilizations, religions, conflicts, and more through today's top headlines. Rare primary source documents, reliable reference materials and multi-media content sets this vast topic into context for students.

GALE PRIMARY SOURCES

Start at the source.

17TH AND 18TH CENTURY NICHOLS NEWSPAPERS COLLECTION

Various sources. Primary Source Media. 17th and 18th Century Nichols Newspapers Collection

Gathered by John Nichols and digitized in full, this collection contains primary source news essential to researchers investigating the seventeenth and eighteenth centuries. It represents a major source of surviving newspapers and periodicals, including unique titles that cover topics ranging from treason and trade to gossip and ads.

ARCHIVES UNBOUND

Various sources. Primary Source Media. Archives Unbound

Since its inception in 2009 the *Archives Unbound* program has published more than 230 titles. The roots of the program are in microfilm, and the collection makes available targeted collections of interest to scholars engaged in serious research. Particular strengths in the *Archives Unbound* catalog include U.S. foreign policy; U.S. civil rights; global affairs and colonial studies; and modern history.

Sub-Enclosure to I.G. Despatch No. 1424 to Shui-wu Ch'u.

CHINA FROM EMPIRE TO REPUBLIC: RECORDS OF THE MARITIME CUSTOMS SERVICE OF CHINA, 1854-1949

Inspector General's Circulars, Vol. 12, Second Series, Nos. 1801-2000, 1911-13

This is an essential collection for researchers of China in the nineteenth and early twentieth centuries. It provides firsthand accounts of the cultural interactions and conflicts that gave rise to today's modern China. Users can cross search this collection with other Gale Asian Studies collections such as *Nineteenth Century Collections Online: Asia and the West*.

ARCHIVES OF SEXUALITY & GENDER: LGBTQ HISTORY AND CULTURE SINCE 1940, PARTS I & II

"Thousands on Gay Parade." Gay News December 4-17: [1]+.

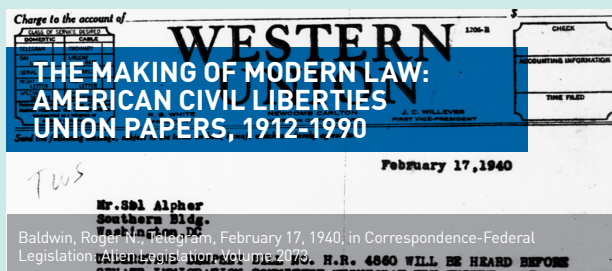

2017 PROSE AWARD: EPRODUCT/BEST IN HUMANITIES

The largest collection available in support of the study of gender and sexuality. This archive enables scholars to make new connections in LGBTQ history and activism, cultural studies, psychology, health, political science, policy studies, and other related areas of research. Together, Parts I & II provide greater coverage of underrepresented communities thought access to key primary source materials.

With *Gale Primary Sources*, we are transforming the way all types of researchers interact with historical archives. In fact, 91% of the top 120 global universities rely on *Gale Primary Sources* to fuel their research and teaching.¹ As the *Gale Primary Sources* publishing program grows, new content is continually published in core and unique areas that interest students, researchers, and scholars.

Sold in over 160 countries and read worldwide, the *International Herald Tribune* is one of the most innovative and original newspapers, famous for being the world's first truly international newspaper. In its early years, it was the essential newspaper for the expatriate American living in Paris. Gertrude Stein, Ernest Hemingway, F. Scott Fitzgerald etc. all perused its pages. This archive allows researchers to explore diverse perspectives and unique coverage through articles, advertisements, and market listings.

The American Civil Liberties Union (ACLU) has consistently stood at the center of controversies involving the rights of Americans. Its records offer researchers a view from inside of the organization and the hundreds of groups with which the ACLU interacted. This archive offers primary source materials from before its founding in 1920 through the twentieth century.

Monographs from the late nineteenth and early twentieth centuries offer transnational coverage of the political economy. This archive supports research on topics such as world trade, finance and capital formation, transportation and the growth of cities, imperialism and colonialism, and other areas of study.

The fourth and final part of this collection fills in the political map with coverage relating to Scandinavia, Turkey, and the Barbary States. Included is a series of ciphers, entry books, treaty papers, and confidential documents that cover a century of war, partition, cultural growth, and social change.

These two collections create a uniquely comprehensive archive of the eighteenth-century dynastic struggle between the exiled Stuarts and the reigning Hanover kings. These papers provide intimate insight into the social, military, and personal worlds of the Jacobite claimants spanning from the Glorious Revolution to the death of the last Stuart heir.

As one of the first academic-level archival resources focused on the social, political, and professional achievements of women, this archive traces the path of women's issues from past to present. Primary sources capture the foundation of women's movements and their struggles and triumphs throughout the nineteenth and twentieth centuries.
